Parishes are reminded of revision to "Implementation & Administration Section B" at March 2007 Executive Council as noted below in italics.

A) Should D.S.F. as calculated under this new policy be less than paid previously, parishes are encouraged to use the savings to increase their portion of the stipend (if an assisted parish) or make extra contributions to the diocese.

B) Any parish which believes it would be unable to pay its new assessment is asked to submit a written application to the diocese, by November 30th of the prior year, for consideration of a lesser amount. The application would document the special circumstances that would support the need for subsidized amount.
